

Benefits of Your Guitar Lessons with EMSG

- You will learn in a **fun and dynamic environment**.
- You will not just learn skills on the guitar. **You will learn how to use and apply these skills in effective ways.**
- You will learn how to play with other musicians. This will develop many areas of your playing and be **a lot of fun!**
- You will learn needed skills to learn and play the **songs of your musical heroes and favorite artists.**
- You will feel **inspired and motivated** to learn which will create much **faster results!**
- **You will have opportunities to record yourself and receive your very own copies to keep.** Hearing recordings of yourself is one of the most effective ways to improve your playing.
- You will learn to be creative on your instrument. **No need for years, or even months of lessons,** you can start creating exciting music with only a few foundational playing skills.
- You will have access to **backing tracks and Drum Loops** to jam along with.
- You will get the opportunity to meet with other students and socialize, form groups, write songs or just jam and have **FUN!!!**
- Learn the most effective ways to practice between lessons. **You will receive weekly customized lesson objectives via online communications** teaching you exactly what and how long to work on each objective for maximum progress.

Lesson Format

The core learning format all students learn in is an ensemble environment. In fact, all the benefits listed on the previous page are best suited for an ensemble format. Plus, this format offers a more effective way for getting the results you want on the guitar.

Learning in ensembles promotes motivation, commitment and confidence in playing in front of people in a fun, relaxed environment.

Ensembles are kept age appropriate and to a size where individual attention can be given to each student during class. The lesson length may vary depending on the number of students, but is typically between 45 – 60 minutes. This gives instructors time to not only teach content, but also train students to practice and apply what has been taught.

Non Musical Benefits of Learning in an Ensemble

We believe music education is about much more than simply teaching songs, chords, and scales, etc. Yes, these things are important, however, it is as much, if not more about teaching life skills and instilling healthy values.

The ensemble learning format provides students with the opportunity to learn and develop:

- Patience
- Self Discipline
- Healthy social awareness
- Courtesy towards others
- Commitment and persistence

It has also been proven that people who study and play music excel in other areas of education and life.

Lesson Tuition

Tuition is based on a monthly basis and due during the last week of the month. This tuition grants enrollment to the student and reserves a spot in class(es) for said student during each week of the month unless otherwise specified based on school policy.

Our Commitment to You

We are constantly learning from and training with some of the top instructors and institutions in the world.

Using proven and effective learning methods, we will enable you to get much more value for your tuition and become a better, more rounded and confident player much faster than alternative learning formats.

Kind Regards,
Ty
East Mesa School of Guitar
